Our policies

We operate several internal policies to ensure that we are conducting business in an ethical and transparent manner. These include:

1. Anti-slavery policy. This policy sets our organisation's stance on modern slavery and explains how employees can identify any instances of this and where they can go for help.
2. Recruitment policy. We operate a robust recruitment policy, including conducting eligibility to work in the UK checks for all employees to safeguard against human trafficking or individuals being forced to work against their will.
3. Whistleblowing policy. We operate a whistleblowing policy so that all employees know that they can raise concerns about how colleagues are being treated, or practices within our business or supply chain, without fear of reprisals.
4. Code of Business conduct. This code explains the way we behave as an organisation and how we expect our employees and suppliers to act.

Our suppliers

Due to the nature of our business and the supply of vehicles and spare parts that are exclusively derived from Renault Trucks and Isuzu Trucks UK we rely on their policies, procedures and Codes of Conduct to ensure that we are compliant with the Act as it is not possible for us to directly review and confirm compliance of their supply chain. Renault Trucks and Isuzu Trucks UK have been assessed as medium risk suppliers. Other UK suppliers are assessed as being low risk.

Volvo Group have confirmed the following:

1. That they have been a signatory to the United Nations Global Compact since 2001 and strive to align their selves to the UN Guiding Principles on Business and Human Rights through the Volvo Group Human Rights Policy and Human Rights Program which operationalises policy commitments and defines minimum standards on human rights management and reporting obligations.
